

# Invitation

KEEP YOUR COMPETITIVE EDGE ...

Attend the SAP® R/3® Project System Partner Conference

PALATIN, WIESLOCH / GERMANY

OCTOBER 25.-28, 1999

# WELCOME

Our vision is always to support TeamSAP in ensuring our customers' success with their project-driven processes.

In support of this vision, we are pleased to offer an unique opportunity to improve their in-depth knowledge and product learning in the world of SAP Project System. This conference is targeted at strengthening relationships with other TeamSAP players, including networking with product management and experienced developers.

## THE CURRICULUM - OVERVIEW

The curriculum is designed to provide Partners with the most up to date product knowledge required to effectively support their customer relationships and SAP Project System implementations. In addition, participants will be informed about the new and advanced processes and functions that our Project System supports. With the materials provided, it will be possible for Partners to improve their in-house skill development.

This 4 day seminar begins each day with a general session focused on SAP corporate initiatives, such as OpenPS and SAPNet.

Each module consists of detailed demonstrations – LIVE ON A 4.5/4.6 SYSTEM – supported by PowerPoint slides and scripts. Each participant will receive a CD which will include all these materials as well as screencams of the live demonstrations. The materials are designed to support partners position the product from the initial client contact through the implementation and maintenance phases.

I look forward to seeing you all in Wiesloch.

Hans Jürgen Rupp  
SAP AG
